EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David W. Poirier on August 19, 2004.

The application has been amended as follows:

In the claims:

In claim 6;

on line 2, change "an" after "receiving" to -the—

on line 3, change "a" after "input signal and" to -the—

on line 3, change "a" after "providing" to -the--.

On line 5, change "a" after "noise by" to -the--

Allowable Subject Matter

1. Claims 4-6, 9 and 10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The arguments for the after-final amendment are persuasive. No prior art has been found to disclose a sigma-delta modulator including an amplifying means, placed before a filter comprised of an input sampling and switch (as opposed to part of a filter), that amplifies the difference between an input signal and a quantized feedback signal and provides the amplified difference to the filter such that the amplification reduces input-referred thermal noise introduced by the filter circuit.
